As you know we have made the Site Investigation Work Plan available on ADEQ's C&H Pond Integrity Evaluation website. We are requesting

that all comments be submitted by the close of business on Tuesday, August 10, 2016.

ADEQ is working with the contractor to confirm the start date for onsite work. It is our hope to conduct the evaluation beginning in mid-August subject to the availability of the drilling subcontractor. Once we have confirmed our schedule we will update the website.

Thanks,

Kim O'Guinn
