

Governor Asa Hutchinson  
State Capitol Room 250  
500 Woodlane Ave.  
Little Rock, AR. 72201

Date:

Dear Governor Hutchinson,

- I urge you to support ADEQ's decision to deny a Reg. 5 permit to the ill-sited hog factory farm in the Buffalo National River Watershed.
- I urge you to support the denial of **ANY** permits that would allow CAFOs in the fragile Buffalo National River Watershed.
- I urge you to assist in implementing a permanent moratorium on CAFOs in the Buffalo National River Watershed.

Closure of C&H seems to be the only solution towards preservation and protection of the Buffalo National River. I hope you will find a way to help the owners to move forward as the closure process takes place.

Swine concentrated animal feeding operations (CAFOs) simply do not have a place in the sensitive karst terrain of the Buffalo National River watershed where hundreds of families depend upon the health of the Buffalo River for their livelihoods.

Governor Hutchinson, let it be part of your legacy to Arkansas, that under your governorship you saved and protected the Buffalo National River.

Sincerely,
