

Email to Pollution Control and Ecology Commission  
Administrative Law Judge, August 29, 2016:

Judge Moulton,

The National Park Service wishes to withdraw their appeal in reference to permit number 3540-WR-7, AFIN 51-00020 due to our inability to secure legal representation. We appreciate your willingness to accommodate our initial request, however, prior commitments and the established timeframes on which to prepare our case limits our ability to acquire representation from our Solicitor's office. While we remain opposed to the permit modification, we recognize the importance of proper legal representation necessary in order to proceed and, therefore, respectfully withdraw our appeal.

Thank you.
